

LEG TANKS

Plastic leg tanks can be used for storing water and most agricultural and industrial chemicals. When used for agriculture, lawn care, nurseries, water hauling or storage. Storage tanks are made of medium-density polyethylene HDPE, Heavy Duty, with ultraviolet (UV) inhibiting stabilizers for long-term outdoor storage. Not all tanks come with Manway & Female discharge, but they can be added. Leg tanks feature molded legs that act as baffles to reduce sloshing. Low profile design offers an increased safety factor and tank walls are translucent for visible content level.

Reference	Capacity		Description	Dimensions		Style		
Part Number	Style	Imp. GAL		LxWxH	Diameter	Color	Fill Opening	Fittings
05110012	LT 40	40	Leg Tank	42" L	20"	Natural	6" threaded cap	Not incl.
05110037	LT 55	55	Leg Tank	41" L	23"	Natural	5" threaded cap	3/4"
05110013	LT 80	80	Leg Tank	59" L	23"	Natural	6" threaded cap	Not incl.
